|                        | Sr Dredging Asset Engineer      | *Bachelors Degree in Engineering or equivalent<br>*Experience in maintaining Dredging asset<br>*Minimum 8 years of experience with Dredging & marine industry                                                                                                                                                                                                                                                                                                                                                                        |
|                        | Sr Dredging Data Engineer       | *Masters or Bachelors Degree in Computer Science or Software Engineering or equivalent<br>*Responsible to manage and optimize the on-premises server-based data infrastructure, focusing on Dredging data<br>*Design and implement data pipelines to manage data extraction, transformation, and loading processes, ensuring effective data flow and integration<br>*Minimum 08 years of experience in Data Engineering or related roles, demonstrating a proven track record of designing and implementing effective                |
|                        | Sr Dredging Naval Architect     | *Masters Degree in marine Engineering or Naval Architect<br>*To plan and prepare safe designs improvements of equipment/structures on dredgers/multicasts/pontoons, boats and other maritime vessels using drawings and specialist complex computer modelling software<br>*Minimum 10 Years' experience with marine vessels (With similar specification of ships/dredgers)                                                                                                                                                           |
|                        | Sr Dredging Planning Engineer   | *Bachelors Degree in Engineering or equivalent<br>*Experience in Programme Management, Planning, Scheduling, and Monitoring & Controlling projects by effective use of Project Management Software's such as P6 Primavera, MS Projects and Spread Sheets<br>*Minimum 10 Years' experience                                                                                                                                                                                                                                            |
|                        | Sr Dredging Production Engineer | *Masters Degree in Engineering or equivalent<br>*Dredging Production Engineer as part of the dredging performance team, analyze the dredging production and verifies implementation of set of dredging methodology on daily basis<br>*Minimum 8 years of experience in Dredging production and strong programming skills                                                                                                                                                                                                             |
|                        | Water Boss                      | *Three year diploma or Bachelors of Engineering or equivalent<br>*Minimum 10 years of experience with Dredging , sinker, floating pipeline operations and water works.                                                                                                                                                                                                                                                                                                                                                               |
|                        | Dredging Superintendent         | *Bachelors of Engineering in Dredging, civil, mechanical or equivalent<br>*strong background in dredging & reclamation operations, including experience in managing dredging production<br>*Minimum 6 to 8 years of experience with Dredging & Reclamation projects on capital dredging, not limited to maintenance dredging                                                                                                                                                                                                         |

Candidates having qualification and experiences with exemplary carrier record in similar work environment OR organization need apply immediately on [engineering@indman.com](mailto:engineering@indman.com) for further shortlisting.

# DESCON UAE – SHUTDOWN

## EX-DESCON CANDIDATES PREFERRED

### ONLINE INTERVIEWS

- Instrument Technician – 20 Nos.
- Millwright Technician – 10 Nos.
- Mechanical Fitters – 200 Nos.
- Pipe Fabricator – 100 Nos.
- Structural Fabricator – 50 Nos.
- Instrument Fitter – 10 Nos.
- Electrical Fitter – 15 Nos.
- Auto Electrician – 05 Nos.
- Pipe Fitter – 100 Nos.
- Welder Multi – 80 Nos.
- Carpenter – 10 Nos.
- Mason – 15 nos.
- Steel Fixer – 10 Nos.
- Time Keeper – 10 Nos.
- Admin Assistant – 10 Nos.
- HD Mechanic – 10 Nos.

Should have Valid UAE License

❖ Operator – Forklift / HIAB / Crane

❖ DRIVER – HTV / LTV / Tanker
